**Material Handling. Delivered**

Redefining Material Handling. Since 1962.

# HERCULES HOISTS LIMITED

Redefining material handling. Since 1962.

Our brand **Indef** is synonymous with customer requirements for LIFTING, MOVING and STORING.

Our networked relationships with Erikkilä, AkappStemmann, VHT, ZascheSitec and Planeta amongst others, ensure that we offer constant innovations activity thereby increasing your productivity.

Driven by our customer-centric approach, we are a one stop destination for in-plant material handling and storage solutions from simple to complex tasks.

Big and small - our customer base spans almost all the sectors of manufacturing. Automotive / Auto-components, Engineering, Infrastructure, Power, Textiles, Metals, Chemicals, Petro-Chemicals, Food Processing ... name a sector and we can name a customer.

Our integrated design and manufacturing unit at Khopoli is equipped with contemporary manufacturing, assembly and testing facilities and has its quality systems certified to ISO 9001:2008 standard. A certain range of our products are also CE certified to meet the demands of our international customers.

Using contemporary design methodologies, our team of engineers design robust products and solutions to support the most demanding material handling requirements.

And you will find us everywhere. Our unrivaled PAN-India network of dedicated Authorised Marketing Associates, Dealers, Regional Offices and Resident Business Facilitators will help you find the right solution for your requirement. And provide spares and service support when you need them.

Checkout [www.indef.com](http://www.indef.com) to locate the support system closest to your location.

## Lifting

The **Indef** range of proven LIFTING solutions include Mechanical Hoists, Electric Chain Hoists and Wire Rope Hoists.

### MECHANICAL HOISTS:

Our range of Mechanical Hoists cover Chain Pulley Blocks and Ratchet Lever Hoists. Choose from the Classic P and M series, the secure ZP and ZM series and the Deutsche Technologie STIER series.

The range covers a SWL from 0.5T to 40 T, Spark Proof models and safety features like load limiter and slipping clutch. All our mechanical hoists carry the CE certification.

### ELECTRIC CHAIN HOISTS:

Indef is the most demanded chain hoist brand in India. Selling multiple thousand units per annum, Indef chain hoists are available from SWL ranges of 0.25T to 20T. Available in the proven EH and

HC series or the state of the art UC and GC series, we offer single or dual speed configurations.

### WIRE ROPE HOISTS:

Like the chain hoists, the robust Indef wire rope hoists are the most sought hoists selling multiple thousand units every year. Indef wire rope hoists are available

from SWL ranges of 1T to 70T. Depending upon customer requirement they are also available in steel mill duty spark proof and special configurations.

The contemporary technology UR and GR range feature short headroom trolley models as standard and also in highly sophisticated executions with VFD and short head room crab models.
